

*"To inspire  
to touch others through creations of my own truth.  
Life motivates and inspires me to seek out the good,  
the inspirational, the mystic qualities of life.*

*Life on this planet, life in this universe,  
the mystic qualities of our minds  
genetic memory, intuition,  
the beauty and balance in nature.*

*Learning through creation  
creating through learning,  
a never ending cycle of life and death and life."*
